

Positioners

▶▶ *PT series*

■ PT-5000

ProArc PT series positioners provide steel fabrication shops to position the jobs for 'downhand' position in the shortest possible time without the use of cranes and manpower. The constructions of ProArc positioners provide safe operation and long trouble-free service.

Features

- Capacities range from 100 to 20,000 kilograms.
- 360 degree rotation, 135 degree tilt range.
- High frequency protected.
- Machined "T" slots table with pilot and through hole.
- A. C. variable frequency drive for rotation.
- Tilt motors are electrically activated mechanical AC brake motors.
- High quality worm gear reducers for smooth operation and minimal backlash.
- Maintenance-free grounding system.
- AD type adjustable table height available.
- Forward-Stop-Reverse and variable speed control are standard.
